

MUNICIPALITY OF POLCENIGO

The true queen of this amazing territory is the nature. Sweetly lying around the Gorgazzo stream and in Livenza, the Pulcher vicus excites and amazes for its play of colours in its freshwaters when the seasons change. The Karst spring, known as "El Buso" is a destination for divers and potholers. On the first Sunday in September, for over three hundred years, the sagra dei Sest (basket festival) dedicated to wickerwork, cane and raffia products is held.
